

Dear parents

Greetings!

Please note that with almost four weeks and more classes done online, the School is ready for the first assessment of the children and hence the First Test has been scheduled for July, 2021 as per the TT shared. Periodic testing of the learning of the children is very crucial for tracking progress of the children and also ensuring further measures are taken care of for remedial support. As you are aware, with the pandemic, there have been too many alterations in the assessment policy even by the Government for all Boards. Bearing this pattern in mind, it is crucial that we plan all assessment and documentation of progress from time to time and each child's portfolio of performance is maintained by us internally. This will only ensure there is smooth progression from one class to another.

From your end as parents, please do ensure children take these periodic assessments seriously and attempt them sincerely so as to avoid last minute study and challenges. The portal has been supportive to all of you and is open for all to check on the videos, recordings of classes and other relevant attendance and data support. I am sure you would have cleared all dues towards the School as well at the earliest, if you have any outstanding fee so as to avoid last minute hassle with online examination and support. If you have not done so, please do contact the class teacher immediately and ensure that the office is approached so as to avoid any disruption during tests and examinations. This will create lesser tension for both the teacher and the child.

All dues are to be cleared not later than the 15th of July, 2021 towards the School for uninterrupted support to children. From our end whenever a parent has asked for time to pay the dues of last year or if there have been enough and more supporting documents of demise due to COVID or loss of job, we have considered requests on case to case basis so that a child's learning is not impacted. However, we have not given any concession to any parent or taken any decision randomly for any section of parents; so please do not get waylaid by unwarranted discussion. As mentioned, earlier too any policy decision will be shared with all parents and circulars updated on the website.

Remain safe!

Best regards,

Principal
